The *curricula* of the members of the Board of Directors are available on the company’ s website (www.autostradatomi.it).

Moreover, the Shareholders’ Meeting approved the authorisation for the purchase and disposal of treasury shares.

This authorisation aims at providing Directors with a flexible management and strategic instrument in order to operate on the market, in compliance with current regulations, by supporting security liquidity and stabilising ASTM security price in presence of listing fluctuations that reflect an unusual performance of the security.

Purchase transactions – which are authorised for a period of 18 months as from today – may be carried out also in more stages, until the maximum number of 17,600,000 ordinary shares with a par value of EUR 0.5 each is achieved, taking into account i) the 2,658,797 treasury shares (equal to 3.021% of the share capital) in portfolio; and ii) the 21,500 shares (equal to 0.024% of the share capital) held by the subsidiary ATIVA S.p.A..

The par value of the purchased shares shall never exceed one-fifth of the share capital, also taking into account the shares that should be acquired by subsidiaries.

The purchase price of each treasury share cannot be lower than EUR 0.5 (corresponding to the par value) nor higher than the reference price recorded by the security during the last trading session prior to the completion of each transaction, increased by 15%.

Purchases will be carried out in compliance with the provisions set out in Art. 2357, paragraph 1 of the Italian Civil Code, within the limits of distributable profit and available reserves, as resulting from the last duly approved financial statements.

Purchase transactions shall take place on regulated markets, pursuant to Art. 132, paragraph 1 of Legislative Decree no. 58 of 24 February 1998 and Art. 144-bis, paragraph 1, letter b) of CONSOB Regulation adopted by Resolution no. 11971 of 14 May 1999 and subsequent amendments. These transactions shall be carried out according to the operational methods set out in the markets’ organisational and management regulations, which shall ensure equal treatment of Shareholders and do not allow the direct matching of purchase proposals with pre-arranged selling proposals.

With regard to the disposal of purchased shares, only the minimum price for third-party sale was defined, that shall not imply negative economic effects for the Company.

The disposal of shares can be carried out – in one or more stages and without time limits – also before completing all purchase transactions. The disposal shall be carried out according to the methods deemed most suitable in the interest of the Company, including – by way of example – disposal on and/or outside the stock exchange and/or on the block market, with an institutional placement.

In case of disposal of all or part of the purchased shares, the unavailable reserve that shall be created in compliance with Art. 2357-ter, paragraph 3 of the Italian Civil Code will be proportionally reduced.

It is not expected that the said purchase of treasury shares is instrumental to a share capital reduction.

The Chairman
Mr Riccardo Formica
