

Turin, 2 September 2009

JOINT PRESS RELEASE

Standard Agreement signed by SALT S.p.A., AdF S.p.A. and SAV S.p.A.

Standard Agreements were signed today by the subsidiaries Società Autostrada Ligure Toscana S.p.A. (SALT), Autostrada dei Fiori S.p.A. (ADF) and Società Autostrade Valdostane S.p.A. (SAV).

The above mentioned concession agreements are subject to approval according to the current motorway regulation (law 286/2006).

The contents of the agreements are in line with the current Standard Agreements already signed by other companies in the Group (Satap A4, Satap A21, Ativa and Autocamionale della Cisa), except for toll pricing. Applying the provisions of Italian Legislative Decree no. 185 of 29 November 2008, SALT S.p.A., AdF S.p.A. and SAV S.p.A. have in fact opted for the “simplified toll formula” whereby adjustment of the minimum annual tolls is anchored to a percentage – established as 70% – of the actual inflation rate (NIC Index recorded in the previous 12 months and referring to the period 1 July-30 June) for the entire duration of the Agreement.
