# SIAS Group - Status of the Concession Agreements

Concessionaires	Status of concession agreements
SATAP (A4/A21) ATIVA	} Effective since June 2008 (Law # 101/08)
ASTI-CUNEO	Effective since Feb 2008
ADF, SALT, SAV CISA	} Signed on Sept. 2009 and approved by Law # 191/09 Signed on March 2010 and approved by Law # 78/10 Effective since November 12, 2010 <sup>(1)</sup>

(1) Concession Agreements have been enforced following the signing of the "appendices" regarding the CIPE's requirements.

# SIAS Group - Toll Formulas

- The annual tariff adjustments, applicable from the 1<sup>st</sup> January of each year, are determined in accordance with **clear formulas, that give visibility to future tariff increases**, as shown in the table below

Concessionaires	Tariff formula
<b>Companies which requested a "re-alignment" of the financial plan <sup>(1)</sup></b>	
SATAP (A4 and A21) <sup>(3)</sup>	$\Delta T = \Delta P - X_r + K + \beta \Delta Q$
SAV <sup>(4)</sup>	$\Delta T = 70\% * CPI + X_r + K$
CISA <sup>(4)</sup>	$\Delta T = 70\% * CPI + X_r + K$
<b>Companies which requested a "confirmation" of the financial plan <sup>(2)</sup></b>	
ATIVA	$\Delta T = \Delta P - X_p + K + \beta \Delta Q$
SALT <sup>(4)</sup>	$\Delta T = 70\% * CPI + K$
ADF <sup>(4)</sup>	$\Delta T = 70\% * CPI + K$

(1) These companies are allowed to a remuneration both for excess investments made in the previous 5-year regulatory period and for new investments

(2) These companies are allowed to a remuneration only for new investments

(3)  $X_r$  is a negative factor and as consequence its inclusion in the formula causes an increase of the tariff

(4) These companies utilize the "simplified tariffs formula", which includes in the tariff a fixed percentage of the real inflation (equal to 70%)

**$\Delta T$**  is the annual tariff increase

**$\Delta P$**  is the annual projected inflation rate as reported in the Italian Budget

**$X_r$**  is determined every 5 years to remunerate the excess investments (if any) made in the previous regulatory period

**$K$**  is determined every year to remunerate the investments performed during the previous year

**$X_p$**  is the productivity (or efficiency) factor

**$CPI$**  is the actual inflation rate for the previous 12 months as reported by ISTAT

**$\beta \Delta Q$**  is the quality factor (related to the status of road surface and the accident rate)

## SIAS Group – Perspective financial structure

- ✓ SIAS will be the main funding entity of the Group; “new” loans/bonds are concentrated at the parent company level
- ✓ The proceeds arising from “new” corporate loans/bond issues are allocated – through intercompany loans – to SIAS’ operating subsidiaries
- ✓ A security interest (pledge) over the intercompany loans is guaranteed; therefore creditors of SIAS effectively rank “pari passu” with creditors of the operating subsidiaries (thus avoiding structural subordination issue)

# SIAS Group - Financial Debt<sup>(1)</sup> as at 31 March 2011

(1) Excluding (i) non financial debt vs FCG (€ 366.7 m) , (ii) fair value of derivatives (€ 24 m) and (iii) bank overdrafts (€ 22 m)

# CLOSING REMARKS

## Operations

- Traffic relatively resilient to economic slowdown
- Motorway stretches located in some of the wealthiest and most economically active areas in Italy
- Flexibility and control on the execution for the capex plan due to works awarded to Group's construction companies

## Regulation

- Reliable regulatory framework: renewal of the concession agreements with clear and supportive tariff formulas (and investments rewarded by specific toll increases)

## Strategy

- Focus on the motorway sector (mainly in Italy)<sup>(1)</sup>
- Selective foreign investments (i) in countries with solid and supportive regulatory frameworks and/or high growth potential (co-investing with other partners to limit risks) and (ii) with limited equity commitment

## Financial Strategy

- Access to well diversified sources of funding (EIB, CDP, corporate bonds, banks)
- High financing capacity due to the balanced mix of mature concessionaires (with positive and stable cash flows) and developing concessionaires (with investments to be realised)
- Stable pay-out ratio of approx. 45/50% of the Group net consolidated profit

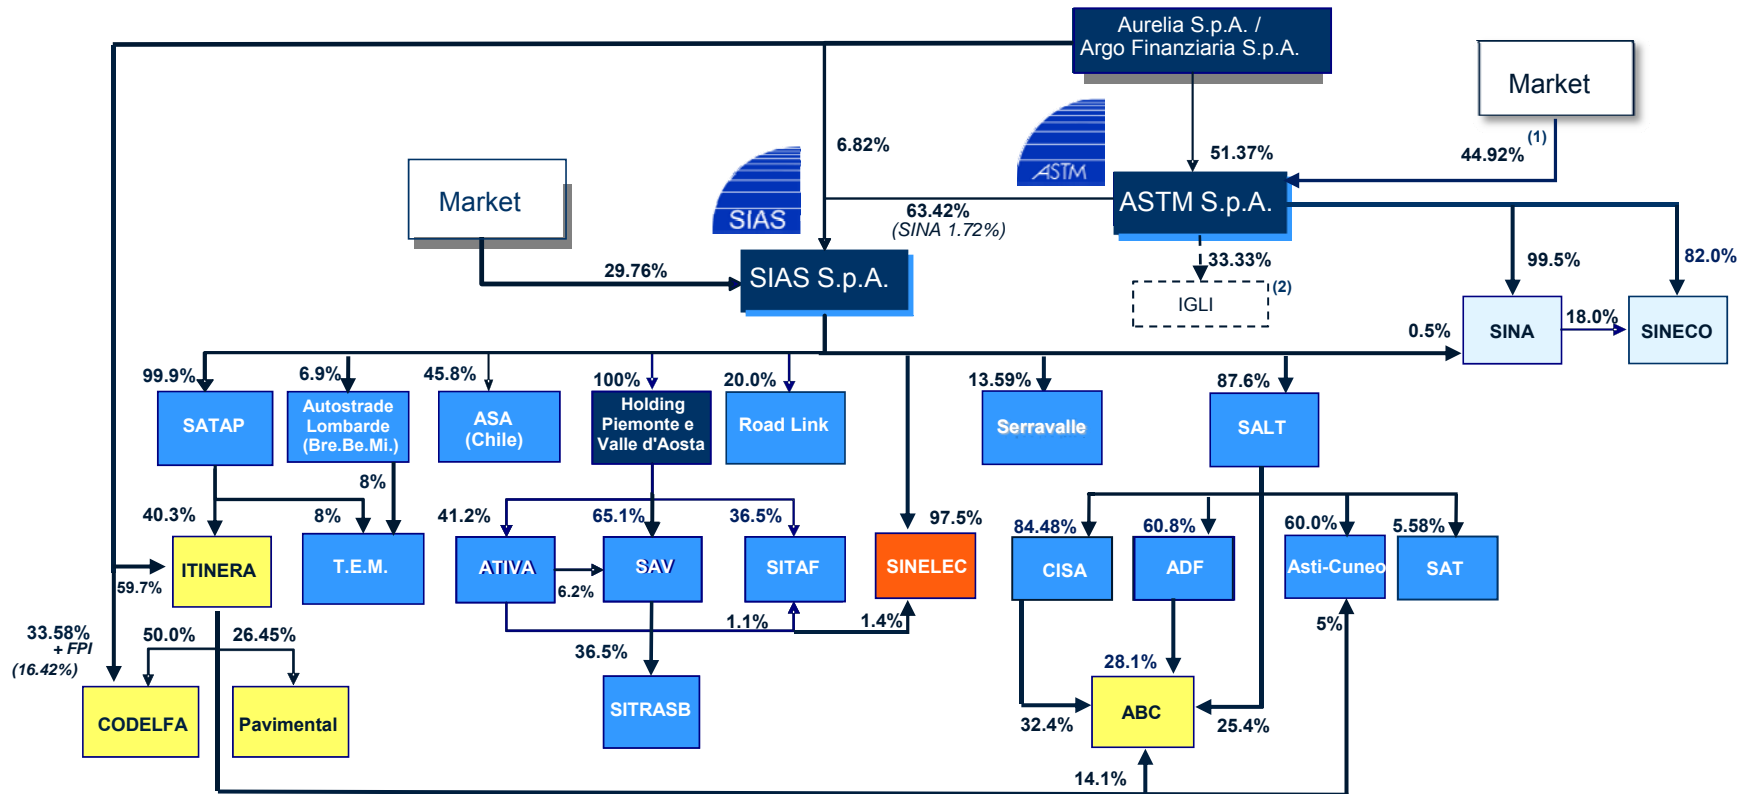

(1) The Group – *inter alia* – bid successfully for two Italian green field initiatives (i.e. “Pedemontana Piemontese” and “Broni-Mortara”)

# SIAS Group - Key Regulatory Protections

## Pass-through

- In the event of tax or legislative changes with specific impact on the industry, tariffs are adjusted upwards by means of a pass-through mechanism to fully indemnify the concession operator

## Early termination

- Contractual failures that can lead to revocation, withdrawal or termination of the concession agreements are expressly regulated

## Indemnity <sup>(1)</sup>

- In case of early termination of the concession agreements, the concessionaire is entitled to receive an amount (a) determined in accordance with the provision of the relevant concession agreement (b) reduced by 10% by way of penalty plus damages (only in case of termination due to material breaches of their obligations by the concessionaires)

## “Re-alignment of the financial plan”

- The financial plan contained in the concessions agreements needs to be updated every five years (“regulatory period”). In addition, ANAS or the concessionaires are entitled to request an “extraordinary review” of the financial plan in case of (i) *force majeure* and/or (ii) additional investments

(1) ATIVA and SALT have the right to receive an indemnity from the new concessionaires for any works executed and not yet amortized as at the expiry date of the relevant concession agreement (equal to € 101m for ATIVA and € 287m for SALT)

# SIAS Group - Others Provisions

## Penalties & sanctions

- The concessionaires may be required by ANAS to pay penalties and sanctions in case of material breach or default of certain obligations arising from the concessions agreements

## Hand over requirements

- Upon the expiration date of each single concession, the relevant concessionaire is required to transfer the motorways and related infrastructure to ANAS without any compensation due to it and in a good state of repair. In any event, each concessionaire shall continue to manage the motorway infrastructure up to selection of a new concessionaire
