COMMENTS OF THE MEMBERS OF THE BOARD OF DIRECTORS

1. SIGNIFICANT EVENTS OF THE FIRST QUARTER OF 2011

OPERATING ACTIVITIES

Thanks to the stability of the regulatory framework, together with the completion of the renewal process of agreements at the end of the previous financial year, the Group motorway companies could both benefit from the toll increases due, and carry out, in the quarter under review, planning and implementation activities of the investments set out in the Standard Agreements in force.

INVESTMENTS

With regard to the investments made, the following table shows the amounts for the 1st quarter of 2011 compared to the corresponding figures for the previous financial year:

MANAGEMENT OF EQUITY INVESTMENTS

Following authorisation by the Granting Body ANAS S.p.A., on 21 April 2011 the equity investment held by the subsidiary SIAS in **Autocamionale della Cisa S.p.A.** was **transferred** to the subsidiary SALT S.p.A.. As described in previous reports, the transaction aims at establishing a coordination policy of the structures, activities and services provided to the users by the said licensees and is part of a Group’s plan aimed at optimising the collection of financing sources. The transfer was carried out for an amount of EUR 251 million, according to a specific appraisal.

With regard to **Chilean investments**, it is noted that, on 31 March 2011, the prospectus for the **listing** procedure on the Santiago de Chile Stock Exchange was filed with the Superintendencia de Valores y Seguros (Chilean Supervisory Body), with regard to the shares of **Autopista do Pacifico S.A.** – a company wholly owned by Autostrade Sud America s.r.l. (in which the ASTM Group holds an investment equal to 45.765% of the share capital).

ANALYSIS OF THE RESULTS FOR THE FIRST QUARTER OF 2011 – ASTM GROUP

The main **revenue and expenditure items** of the first quarter of 2011 (with the corresponding figures of the same period of 2010) may be summarised as follows:

(values in thousands of EUR)

	1 st quarter 2011	1 st quarter 2010	Changes
Gross motorway sector revenue	210,198	183,958	26,240
Construction sector revenue ^{(1) (2)}	441	314	127
Engineering sector revenue	6,915	4,572	2,343
Technology sector revenue	4,750	4,982	(232)
Other revenues	9,510	10,743	(1,233)
Turnover (A)	231,814	204,569	27,245
Operating costs ^{(1) (2)} (B)	(102,123)	(94,258)	(7,865)
Gross operating margin (A+B)	129,691	110,311	19,380

⁽¹⁾ With regard to motorway companies, IFRIC 12 sets out full recognition in the income statement of costs and revenues for “construction activity” concerning non-compensated revertible assets. In order to provide a clearer representation in the table above, these components were reversed for the same amount from the corresponding revenue/cost items.

	1 st quarter 2011	1 st quarter 2010
Construction sector revenue	56,121	52,291
“Construction activity” revenues - motorway companies (increase in non-compensated revertible assets)	(53,655)	(51,977)
Construction sector revenue (outside the Group)	2,466	314
Operating costs	(157,803)	(146,235)
“Construction activity” operating costs – motorway companies	53,655	51,977
Adjusted operating costs	(104,148)	(94,258)

⁽²⁾ Net of costs and revenues debited, *pro-quota*, by Consorzio Stabile ACI S.c.p.a. (equal to approximately EUR 2 million).

The item “*motorway sector revenue*” totalled EUR 210.2 million (EUR 184 million in the first quarter of 2010) and breaks down as follows:

(values in thousands of EUR)

	1 st quarter 2011	1 st quarter 2010	Changes
Net toll revenues	183,871	166,449	17,422
Fee/additional fee payable to ANAS	17,210	8,463	8,747
Rental income – Royalties from service areas	9,117	9,046	71
Total motorway sector revenue	210,198	183,958	26,240

The item “net toll revenues” increased by EUR 17.4 million: this change is due, for EUR 2.3 million, to the increase in traffic volumes and, for EUR 15.1 million, to the toll increase granted - as of 1 January 2011 - for the investments made.

The increase in the item “*fee/additional fee payable to ANAS*” (+EUR 8.7 million) was mainly due to the increase in kilometric surcharges applied by the Granting Body with effect from 1 July 2010 and 1 January 2011. Based on the fact that the fees had been collected on behalf of ANAS, this increase wholly affected the item “*other operating costs*”.

The work carried out for third parties by the “*construction*” and “*technology*” sectors was substantially in line with the same period last year.

The “*engineering*” sector shows – against a decrease in the activities carried out for the Group's motorway companies – an increase in planning activities carried out by the subsidiary SINA S.p.A. for Third parties, for a total of EUR 2.3 million (which led to a corresponding increase in “operating costs”).

The decrease in “*other revenues*” (-EUR 1.2 million) was due to the reduction in both recovery of expenses and works carried out on behalf of third parties, and refunds - by insurance companies - for higher costs incurred by motorway companies for repair to the motorway network following accidents or other damages.

The increase (EUR 7.9 million) in “operating costs” was due (i) to the growth (for a total amount of EUR 10.1 million) related to the said additional fee payable to ANAS (+EUR 8.7 million) and the concession/sub-concession fee (+EUR 1.4 million), (ii) to higher costs incurred by the “engineering” sector (EUR 4.2 million) related to both the increase in the production for third parties and the development of new initiatives, which will generate a further increase in turnover. This increase was partially offset by a decrease (for a total amount of EUR 6.4 million) in the costs for “maintenance of non-compensated revertible assets” (-EUR 3.1 million, due to a different schedule of maintenance operations) and “winter services” (-EUR 3.3 million, given the favourable weather conditions which characterised the quarter).

With regard to the above, the “gross operating margin” (up EUR 19.4 million, +17.5%) totalled EUR 129.7 million.

Net financial indebtedness can be broken down as follows:

<i>(values in thousands of EUR)</i>	31/03/2011	31/12/2010	Changes
A) Cash and cash equivalents	689,977	500,379	189,598

E) Bank short-term borrowings	(122,305)	(147,428)	25,123

K) Bonds issued ^(*)	(702,227)	(701,298)	(929)

N) Net financial indebtedness (I) + (M)	(1,184,586)	(1,242,462)	57,876
O) Discounted value of the payable due to ANAS-Central Insurance Fund	(366,717)	(361,843)	(4,874)
P) “Adjusted” net financial indebtedness (N) + (O)	(1,551,303)	(1,604,305)	53,002

(*) Net of the “SIAS 2.625% 2005-2017” bonds held by the Parent Company ASTM (equal to EUR 94 million).

The “adjusted net financial indebtedness” as at 31 March 2011 - showing an improvement of approximately EUR 53 million compared to 31 December 2010 - totalled EUR 1,551.3 million (EUR 1,604.3 million as at 31 December 2010).

The changes in the items “cash and cash equivalents” and “financial receivables” are mainly due to the settlement of expired repurchase agreements.

The decrease in the item “bank long-term borrowings” was due, for approximately EUR 24 million, to the implementation of the positive fair value difference with regard to interest rate swap agreements signed by the Group’s motorway companies in order to prevent the risk from interest rate changes.

To this date, approximately 86% of the medium/long-term indebtedness of the Group is at “fixed rate”/“hedged” and is governed on the basis of a disbursement corresponding to an all-in **weighted average rate of 4.1%**.

The change in the “discounted value of the payable due to ANAS-Central Insurance Fund” is mainly due to the assessment of the charges for discounting the payable.

It is noted that the above-mentioned “net financial indebtedness” does not include credit link note bonds for a total amount of EUR 20 million and expiring in FY 2014, which were acquired during the quarter by the Group companies in order to invest cash.

ANALYSIS OF THE RESULTS FOR THE FIRST QUARTER OF 2011 – MAIN INVESTEE COMPANIES

In order to enable the analysis of the revenue and expenditure items related to the two managed stretches, the item “*gross operating margin*” (EBITDA) for the stretches “Turin – Piacenza” (A21) and “Turin – Milan” (A4) may be broken down as follows:

TURIN – ALESSANDRIA – PIACENZA (A21 STRETCH)

(values in thousands of EUR)

	1 st quarter 2011	1 st quarter 2010	Changes
Motorway sector revenue	37,772	31,833	5,939
Other revenues	1,666	1,755	(89)
Turnover (A)	39,438	33,588	5,850
Operating costs (B)	(15,879)	(16,186)	307
Gross operating margin (A-B)	23,559	17,402	6,157

Motorway sector revenue amounted to EUR 37.8 million (EUR 31.8 million in the first quarter of the previous financial year) and breaks down as follows:

	2011	2010	Changes
Net toll revenues	31,940	28,290	3,650
Fee/additional fee payable to ANAS	4,099	1,991	2,108
Other accessory revenues	1,733	1,552	181
Total motorway sector revenue	37,772	31,833	5,939

The increase in “*net toll revenues*” was due to the growth in traffic volumes for EUR 0.7 million and to the increase in toll rates as of 1 January 2011 for EUR 2.9 million.

The increase in the item “*fee/additional fee payable to ANAS*” (+EUR 2.1 million) was mainly due to the increase in kilometric surcharges applied by the Granting Body with effect from 1 July 2010 and 1 January 2011. Based on the fact that the fees had been collected on behalf of ANAS, this increase wholly affected the item “*operating costs*”.

“*Other accessory revenues*” mainly refer to rental income on service areas. The value recorded in the first quarter of FY 2011 increased by EUR 0.2 million compared to the same period last year.

The decrease in “*operating costs*” (equal to EUR 0.3 million) was due to lower “maintenance and other costs related to non-compensated revertible assets” for EUR 0.8 million (resulting from a different schedule of operations) and to the decrease in the costs for “winter services” and the purchase of road salt for EUR 2 million (given the better weather conditions which characterised the quarter). This cost decrease was partially offset by the increase (for a total of EUR 2.5 million) in both the sub-concession fee and the said additional fee payable to ANAS.

With regard to the above, the “*gross operating margin*” (EBITDA) increased by EUR 6.2 million, amounting to EUR 23.6 million.

TURIN – MILAN (A4 STRETCH)

(values in thousands of EUR)

Operating costs (B)	(18,189)	(17,233)	(956)
Gross operating margin (A-B)	33,220	26,565	6,655

Motorway sector revenue amounted to EUR 50.3 million (EUR 42.5 million in the first quarter of the previous financial year) and breaks down as follows:

	2011	2010	Changes
Net toll revenues	43,492	37,970	5,522
Fee/additional fee payable to ANAS	4,366	2,147	2,219
Other accessory revenues	2,399	2,406	(7)
Total motorway sector revenue	50,257	42,523	7,734

With regard to the “A4 Stretch”, the increase in “*net toll revenues*” was due to the growth in traffic volumes for EUR 0.5 million and to the increase in toll rates as of 1 January 2011 for EUR 5 million.

The increase in the item “*fee/additional fee payable to ANAS*” (+EUR 2.2 million) was mainly due to the increase in kilometric surcharges applied by the Granting Body with effect from 1 July 2010 and 1 January 2011. Based on the fact that the fees had been collected on behalf of ANAS, this increase wholly affected the item “*operating costs*”.

“*Other accessory revenues*” mainly refer to rental income on service areas. The value recorded in the first quarter of FY 2011 was mainly in line with the corresponding figures for the first quarter of 2010.

The increase in “*operating costs*” (equal to approximately EUR 1 million) was due to the increase (EUR 2.8 million) in both the sub-concession fee and the said additional fee payable to ANAS. This increase was partially offset by lower “maintenance and other costs related to non-compensated revertible assets” for EUR 0.6 million (resulting from a different schedule of operations) and the decrease in the costs for “winter services” and the purchase of road salt for EUR 1.2 million (given the better weather conditions which characterised the quarter).

The “*gross operating margin*” (EBITDA) totalled EUR 33.2 million (EUR 26.6 million in the first quarter of 2010).

As regards the “**net financial position**”, a summary of its main components is provided below:

Description	31/03/2011	31/12/2010	Changes

P) “Adjusted” net financial indebtedness (N) + (O)	(585,452)	(627,407)	41,955

The “*adjusted net financial indebtedness*” as at 31 March 2011 - showing an improvement compared to 31 December 2010 - totalled EUR 585.5 million (EUR 627.4 million as at 31 December 2010).

The increase in the items “*cash and cash equivalents*” and “*financial receivables*” was mainly due to the cash generated from operating activities.

The change in the item “*current portion of medium/long-term borrowings*” was due to the assessment of the interests accrued on outstanding loans. The decrease in the item “*bank long-term borrowings*” (EUR 21.1 million) was mainly due to the implementation of the positive fair value difference, that occurred in the first quarter of 2011, with regard to interest rate swap agreements signed by the Company for a total nominal value of EUR 711 million as at 31 March 2011 (which guarantee an all-in weighted average rate of 4.5% for maturities between 2021 and 2024).

The item “*other long-term payables*” was due to the 10-year intercompany loan granted in October 2010 by the parent company SIAS, based on the funding from the bond issue.

It is noted that the above-mentioned “*net financial indebtedness*” does not include a credit link note bond for a total amount of EUR 10 million and expiring in FY 2014, which was acquired by the Company in order to invest cash.

The main **revenue and expenditure items** of the first quarter of 2011 (with the corresponding figures of the same period of 2010) may be summarised as follows:

(values in thousands of EUR)

**NOTES TO THE
CONSOLIDATED FINANCIAL STATEMENTS**

CONTENTS OF THE INTERMEDIATE MANAGEMENT REPORT

This intermediate management report was prepared in compliance with IAS/IFRS International Accounting Standards; as a consequence, also the comparative data relating to the same period of last year complies with the above-mentioned standards.

Any estimation procedures different from those normally used for the preparation of the annual accounts ensure reliable information. In the notes to the financial statements, information on any estimation procedure is provided.

The Company – by making use of the power envisaged by CONSOB Resolution no. 11661 of 20 October 1998 – indicated the amounts in thousands of euro, both in the “financial statements” and in the “notes to the financial statements”.

TURNOVER AND OPERATING PROFIT

Motorway sector revenue – operating activities

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
Net toll revenues	183,871	166,449	17,422
Fee/Additional fee payable to ANAS	<u>17,210</u>	<u>8,463</u>	<u>8,747</u>
Gross toll revenues (a)	201,081	174,912	26,169
Other accessory revenues - rental income (b)	<u>9,117</u>	<u>9,046</u>	<u>71</u>
Motorway sector revenue (a + b)	210,198	183,958	26,240

Toll revenues for the first quarter were calculated according to the data recognised on 28 February, by estimating – based on the traffic performance of each station – the amounts recorded in March.

The increase in “*net toll revenues*” was due to the growth in traffic volumes for EUR 2.3 million and to the increase in toll rates as of 1 January 2011 for EUR 15.1 million.

The increase in the item “*fee/additional fee payable to ANAS*” (+EUR 8.7 million) was mainly due to the increase in kilometric surcharges applied by the Granting Body with effect from 1 July 2010 and 1 January 2011. Based on the fact that the fees had been collected on behalf of ANAS, this increase wholly affected the item “*operating costs*”.

“*Other accessory revenues*” refer mainly to rents on service areas. These are substantially in line with the same period last year.

Motorway sector revenue – planning and construction activities

This item totalled EUR 53,655 thousand (EUR 51,977 thousand in the first quarter of 2010) and refers to “planning and construction activities” of non-compensated revertible assets that – according to IFRIC 12 – are booked among revenues with regard to both the portion carried out by the Group and that of Third Parties. A similar amount of costs was booked, against these revenues, under item “Other costs for services”.

Construction sector revenue

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
- Revenue from works and planning and variation in contract work in progress	2,029	11	2,018
- Other revenue and changes in inventories of work in progress, semi-finished products and finished goods	<u>437</u>	<u>303</u>	<u>134</u>
Total	2,466	314	2,152

This item relates to the total amount of “production” carried out for Third parties by the subsidiaries ABC Costruzioni S.p.A. and Sicogen s.r.l.. This amount is posted net of the intercompany “production” related to maintenance and expansion services performed on the motorway network by the cited Companies for the Group motorway companies.

The increase was mainly due to the production of the Consortium ACI S.c.p.a. (not belonging to the ASTM Group) and ascribed to the shareholders based on their shareholdings. Therefore, a similar change was recorded in the item “Costs for services - Other costs for services”.

Engineering sector revenue

This item, equal to EUR 6,915 thousand (EUR 4,572 thousand in the first quarter of 2010), refers to the total amount of “production” carried out by the subsidiaries SINA S.p.A., SINECO S.p.A., LIRA S.p.A., Ativa Engineering S.p.A. and Cisa Engineering S.p.A.. This amount is posted net of the intercompany “production” related to maintenance and expansion services performed on the motorway network by the cited Companies for the Group motorway companies.

Compared to the same period last year, the increase was mainly due to planning and works management activities carried out by SINA for Third parties.

Technology sector revenue

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
- Revenue from works	3,442	4,248	(806)
- Variation in contract work in progress	1,021	831	190
- Variation in work in progress, semi-finished and finished goods and other revenue	<u>287</u>	<u>(97)</u>	<u>384</u>
Total	4,750	4,982	(232)

This is the total amount of “production” carried out for Third Parties by the subsidiaries Sinelec S.p.A. and Euroimpianti Electronic S.p.A.. The above-mentioned amounts are recognised net of intercompany “production” related to maintenance and enhancement activities for the motorway network, which were carried out by the said Companies in favour of the Group’s motorway companies.

Other revenue and income

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
- Claims for damages	1,130	1,577	(447)
- Recovery of expenses and other income	3,213	3,798	(585)
- Share of income resulting from the discounting of the payable due to ANAS-Central Insurance Fund	4,676	4,824	(148)
- Works on behalf of third parties	414	467	(53)
- Operating grants	<u>77</u>	<u>77</u>	-
Total	9,510	10,743	(1,233)

The change in the item “*claims for damages*” was due to lower refunds – by insurance companies – for the costs incurred by motorway companies for repair to the motorway network following accidents or other damages.

The item “*share of income resulting from the discounting of the payable due to ANAS-Central Insurance Fund*” refers to the share related to the difference – which was previously deferred – between the original amount of the payable and its present value.

OPERATING COSTS

Payroll costs

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
- Wage and salaries	28,073	27,186	887
- Social security costs	8,704	8,610	94
- Employee severance indemnity	2,082	1,584	498
- Other costs	<u>504</u>	<u>549</u>	<u>(45)</u>
Total	39,363	37,929	1,434

The increase in “*payroll costs*” reflected, among other things, the increase in the staff of the “*engineering sector*” as compared to the same period last year.

Costs for services

This item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
Maintenance of non-compensated revertible assets	6,029	9,198	(3,169)
Other costs related to non-compensated revertible assets	6,848	10,487	(3,639)
Other costs for services	<u>70,932</u>	<u>62,620</u>	<u>8,312</u>
Total	83,809	82,305	1,504

The item “*maintenance of non-compensated revertible assets*” is recognised net of intragroup “production” carried out by Group companies operating in the “construction”, “engineering” and “technology” sectors in favour of motorway companies. The total amount of **maintenance operations** carried out in the first three months of FY 2011 was equal to

EUR 20.2 million (EUR 23.3 million in the first quarter of 2010). The decrease in costs for the maintenance of non-compensated revertible assets was mainly due to a different schedule of operations, while the other costs related to non-compensated revertible assets are affected by the decrease in the costs incurred for “winter services”, thanks to fewer snowfalls during the winter season.

The item “other costs for services” includes – as set out in IFRIC 12 – the costs related to “planning and construction activities” of non-compensated revertible assets. The change includes the *pro-quota* share of the costs debited by the Consortium ACI S.c.p.a. and of higher costs incurred by the “engineering” sector for the increase in both the production carried out for third parties and the development of new initiatives.

This category also includes professional fees, costs for legal assistance, fees for corporate bodies, as well as services provided by subcontractors to the subsidiaries ABC Costruzioni S.p.A. and Euroimpianti Electronic S.p.A..

Costs for raw materials

This expense item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
Raw materials, consumables and merchandise	9,525	9,270	255
Changes in inventories of raw materials, consumables and merchandise	<u>(257)</u>	<u>37</u>	<u>(294)</u>
Total	9,268	9,307	(39)

This item relates to production material and consumables and mainly refers to the subsidiaries ABC Costruzioni S.p.A., Euroimpianti Electronic S.p.A., Sicogen s.r.l. and Sinelec S.p.A..

Other operating costs

This expense item breaks down as follows:

<i>(in thousands of EUR)</i>	1 st quarter 2011	1 st quarter 2010	Changes
Concession fee pursuant to art. 1, paragraph 1020 of Law no. 296/06	4,413	3,995	418
Fee pursuant to art. 19, paragraph 9-bis of Law Decree no. 78/09	17,210	8,463	8,747
Sub-concession fee	1,230	285	945
Lease and rental expenses	2,109	2,249	(140)
Other operating expenses	<u>1,838</u>	<u>1,719</u>	<u>119</u>
Total	26,800	16,711	10,089

The item “concession fee pursuant to art. 1, paragraph 1020 of Law no. 296/06” has been calculated according to 2.4% of “net toll revenues”; the change compared to the first quarter of 2010 is linked with the increase in toll revenues.

The increase in the “fee pursuant to art. 19, paragraph 9-bis of Law Decree no. 78/09” was due to both the increase in tariff surcharge as from 1 July 2010 and 1 January 2011 (from EUR 0.0030 vehicle/km to EUR 0.0060 vehicle/km for light

vehicles and from EUR 0.0090 vehicle/km to EUR 0.0180 vehicle/km for heavy vehicles) and the total increase in traffic volumes.

The increase in “*sub-concession fee*” was due to the fact that – based on the agreements with the Granting Body as part of the Standard Agreements in force – this fee, which has been calculated based on the rental income and royalties from service areas, increased from 2% in the first quarter of 2010 to 5% - 20% in the first quarter of 2011.

Capitalised expenses for internal work

This item, amounting to EUR 1,437 thousand (EUR 17 thousand in the first quarter of 2010), refers to internal works carried out within the Group and capitalised as an increase to tangible assets.

The significant increase compared to the same period last year was due to the works carried out by ABC Costruzioni S.p.A. for the construction of the industrial building of Logistica Tirrenica S.p.A..

CONSOLIDATED NET FINANCIAL POSITION

Net financial indebtedness can be broken down as follows:

<i>(values in thousands of EUR)</i>	31/03/2011	31/12/2010	Changes
A) Cash and cash equivalents	689,977	500,379	189,598

O) Discounted value of the payable due to ANAS-Central Insurance Fund	(366,717)	(361,843)	(4,874)
P) “Adjusted” net financial indebtedness (N) + (O)	(1,551,303)	(1,604,305)	53,002

(*) Net of the “SIAS 2.625% 2005-2017” bonds held by the Parent Company ASTM (equal to EUR 94 million).

The “*adjusted net financial indebtedness*” as at 31 March 2011 - showing an improvement of approximately EUR 53 million compared to 31 December 2010 - totalled EUR 1,551.3 million (EUR 1,604.3 million as at 31 December 2010).

The changes in the items “*cash and cash equivalents*” and “*financial receivables*” are mainly due to the settlement of expired repurchase agreements.

The decrease in the item “*bank long-term borrowings*” was due, for approximately EUR 24 million, to the posting of the positive fair value difference with regard to interest rate swap agreements signed by the Group’s motorway companies in order to prevent the risk from interest rate changes.

To this date, approximately 86% of the medium/long-term indebtedness of the Group is at “*fixed rate*”/“*hedged*” and is governed on the basis of a disbursement corresponding to an all-in **weighted average rate of 4.1%**.

The change in the “*discounted value of the payable due to ANAS-Central Insurance Fund*” is mainly due to the assessment of the charges for discounting the payable.

It is noted that the above-mentioned “*net financial indebtedness*” does not include credit link note bonds for a total amount of EUR 20 million and expiring in FY 2014, which were acquired during the quarter by the Group companies in order to invest cash.
